## DETAILED ACTION

### *Double Patenting*

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 3, 5, 10, 12, 17 and 19 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-10 of U.S. Patent No. 6,889,918 in view of US Patent No. 5,396,926. The 6,889,918 Patent teaches all the limitations of the present invention except where the restricted area is located between the first and second seating portions.

However, the 5,396,926 U. S. Patent teach where a restricted area is provided between first and second seating portions.

Thus, it would have been obvious to one having ordinary skill to provide the control valve arrangement of the 6,899,918 patent with the restricted area located between the first and second seats of the 5,396,926 patent in order to provide for a control valve arrangement with improved delivery to an internal combustion engine.

### ***Response to Arguments***

#### **Rejection under 35 USC § 102**

Examiner withdraws the rejection held against claims 1,3, 4, 10 and 12 in view of reconsideration of the prior art as a result of Applicant's arguments and the telephonic interview conducted 02/24/2010.

#### **Rejection under 35 USC § 103**

Examiner withdraws the rejection held against claims 17 and 19 in view of reconsideration of the prior art as a result of Applicant's arguments and the telephonic interview conducted 02/24/2010.

#### **Double Patenting Rejection**

Applicant's arguments filed 03/08/2010 have been fully considered but they are not persuasive. Applicant's terminal disclaimer filed 03/08/2010 has not been approved due to the need for a statement under 37 CFR 3.73(b). Accordingly, Examiner

maintains the non-statutory obviousness type double patenting rejection over Claims 1, 3, 5, 10, 12, 17 and 19 of US 6,889,918 in view of US 5,396,926.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
